Minimum commission fee	USD 1
Commission fee per executed order is calculated as follows: $C = \max(TV \times TVR, TQ \times TQR)$, where: C is the commission fee amount, TV is the total transaction volume specified in the order, in USD, TVR is the rate applied to the transaction volume, TQ is the total quantity of underlying securities specified in the order, TQR is the rate applied to the quantity of underlying securities. If the commission fee calculated is less than the minimum commission fee, the minimum commission fee shall be charged.	

NOTES:

- The above tariffs apply unless otherwise established for a particular client or client group.
- Transaction fees include commission fees charged by banks, the regulated market operator, and clearing and settlement system operators.
- The tariffs do not include regulatory fees.
- If more than one deal is concluded based on the same order, the minimum fee will be applied once for the combined transaction value.

- All the fees are exclusive of the value added tax (hereinafter: VAT) and are subject to VAT unless they are VAT exempt according to the legislation of the Republic of Armenia.
